

Appendix 2

Russian-Chinese Arctic Forum of Young Scientists of the ASRTU

● ORGANIZING COMMITTEE

- Association of Sino-Russian Technical Universities (ASRTU)
- Harbin Institute of Technology, Harbin, People's Republic of China
- Bauman Moscow State Technical University, Moscow, Russia
- M. K. Ammosov North-Eastern Federal University, Yakutsk, Russia

● GENERAL INFORMATION

The Russian-Chinese Arctic Forum of Young Scientists of the ASRTU is a youth platform of the First Arctic Research Forum of the ASRTU. It is organized to stimulate students to participate in scientific innovation activities in construction and related sectors, as well as to provide an environment for young researchers and engineers for consolidation and international cooperation. The event will be held on September 14th and 15th, 2018 in Yakutsk, Russia.

● SCOPE OF THE FORUM

The forum will cover scientific and applied research in diagnostics, the design and construction of safe and comfortable buildings and facilities, transport infrastructure in low temperature conditions, innovative materials development, new construction and technological solutions.

The program of the forum includes oral and poster presentations of the work on various topics. Selection of presentation types will be made after the scientific committee considers abstracts.

● FORUM TOPICS

- Architecture and municipal planning in cold regions
- Reliability of buildings and construction on permafrost
- Modern construction materials and technologies
- Energy conservation and energy efficiency
- Alternative energy sources
- Construction and operation of transportation infrastructure in arctic conditions
- Logistics and international transport
- Transport engineering
