Russian-Chinese Field School of Young Scientists of the ASRTU

Colleagues, professors and staff from member and observer universities of the ASRTU!

We would like to invite young specialists / participants attending the 2018 ASRTU Meeting in Yakutsk to participate in the Russian-Chinese Field School of Young Scientists of the ASRTU. The goal of the school is to introduce the environmental conditions of Central Yakutia and construction peculiarities for buildings and facilities, as well as transport infrastructure on permafrost.

● OBJECTIVES OF THE FIELD SCHOOL

Young researchers will become familiar with the environment of the middle reaches of the river Lena, participate in field scientific research and visit construction sights and hydraulic structures of Yakutsk as part of a scientific and educational tour. A trip to the northernmost zoo in the world and Orto Doidu Yakut ritual complex is included as part of the cultural program.

● FIELD SCHOOL DIRECTIONS

Field school is a communicative field for the development of international and multidisciplinary cooperation between young scientists in fields such as construction of buildings and facilities, engineering and geocryological survey, geology, field hydrometeorological and landscape research.
